Manifesto

## 🚀 Welcome to AI Seekho India: A 10-Day Journey to Understand AI

AI Seekho India — Bridging the gap between rural wisdom and modern technology through simple, joyful AI learning.

Simple. Free. For Everyone.

⬜An initiative of Shunya Axis to empower Bharat through mindful technology.

📖 Welcome to AI Seekho India

A public learning movement to bring Artificial Intelligence to every learner — especially in Bharat's schools, small towns, and villages.
We teach AI in simple Hindi-English, with real-life examples, grounded in our values of 'shiksha, sadhna, and sewa'.

🚀 Powered by Shunya Axis(https://shunyaxis.com) — for a conscious digital Bharat.⬜ Welcome to AI Seekho India

AI is not just for coders in Silicon Valley or students in IITs. It's already changing how farmers grow food, how students learn, how doctors diagnose, and how jobs will evolve across India. This is your journey — not to become an AI engineer, but to become **aware**, **curious**, and **confident** in a world shaped by AI.

Over 10 short, friendly days, we'll help you:

- Understand AI in simple Hindi-English flow.

- See examples from *rural India* and daily life.

- Ask powerful questions.

- Learn how to talk to AI (like ChatGPT).

- Discover your role in the AI-powered future.

All in less than **10 minutes a day**.

🗄 Your 10-Day Learning Journey

⚙ [Day 2: What is AI, Really? Busting the Myths](LINK)
⬜ Day 3: (Coming soon…)

🎖 What is AI Seekho India?

AI Seekho India is a grassroots digital movement to bring **free, simplified AI learning** to every Indian — especially in rural, tribal, and under-served regions.

We use:

- Conversational language

- Indian analogies and examples

- Open-access platforms (like Medium)

Because we believe **AI literacy is a form of self-reliance (आत्मनिर्भरता)**.

✍

Who Is This For?

- Students (any background)

- Farmers curious about agri-tech

- Teachers & social workers

- Homemakers exploring digital tools

- Entrepreneurs in small towns and villages

- Anyone who says "AI is not for me" — but is willing to try
